Panama, Jan 22.—Colonel George W. Soethals, chief engineer of the Panama canal, recently was tendered the position of police commissioner of New York city by Mayor Mitchel and in reply to the letter sent him by Mayor Mitchel through George W. Perkins signified his willingness to accept the post under certain conditions. These conditions were that he should be permitted to remain on the isthmus until the Panama canal is completed and in successful operation and that he be given complete control over the police department.

Colonel Goethals in his letter to Mayor-Mitchel, given out tonight, said:
"I have given much consideration to your kind offer to appoint me police commissioner and have discussed it fully with Mr. Perkins. I can only reiterate what I have stated to youthat the position strongly appeals to me, but there are certain conditions which prevent me from accepting it. "In the first place it has been my hope and desire to see the canal completed and in satisfactory operation. Colonel Goethals added that he must have complete control over the police department in case of his acceptance, including the right to dismiss incom-petent men without their baving the petent men without their naving the right to appeal to a court which would have the power to annul his dismissals. In other words, we Jemanded that the law which gives courts on appeals from the commissioner's decisions the right to review cases and reinstate men with back pay, be repealed by the state legislature.

Commissioner Has Too Limited Powers
Colonel Goethals said today that Mr.
Perkins made a special trip to the
isthmus to bring him the letter from
Mayor Mitchel containing the offer of
the commissionership. He added that
the conditions he imposed seemed to
practically preclude his becoming the
head of the New York police department. When the offer was first made,
he said, it looked attractive to him,
but an investigation showed him that
the police commissioner had too limited powers to carry into effect reforms such as he might propose. Commissioner Has Too Limited Powers

TO MEET CONDITIONS. Mayor Mitchel Will Try to Remove Obstacles to Acceptance,

New Tork, Jan. 23.—Mayor John Purroy Mitchel in announcing tonight that he had secured from Colonel George W. Goethals a qualified acceptance of an offer of the New York police commissionership, made it known that he would at once take steps in an effort to meet the conditions laid down by the Panama canal builder.

In cases where a man whose services have not been satisfactory can be reinstated by a court of review, the effect on discipline and efficiency is most injurious. The former I would not consider. For the last few years, I have been looking forward to securing the advantages of retirement at the close of my duty here. Washington, Jan. 23.—Conviction in administration circles that the Huerta regime in Mexico is rapidly approaching the collapse which has been persistently predicted has led to much discussion here of the nature of John Lind's frequent conferences with Mexican leaders. Mr. Lind's latest conferences with Jesus Flores Magon and other Mexican statesmen, have interested members of the diplomatic corps, who pointed out tonight that, in view of President Wilson's reiterated statements that he would not recognize Huerta nor any of the things he stands for, the American envoy might very naturally be induced to throw out hints as to what type of man would meet with approval at the White House. They thought that Mexicans would in all likelihood embrace an opportunity to sound Mr. Lind informally as to the acceptability of various leaders who might arise when the crisis is reached.
